

EXCITING NEWS: GOVERNORS' VIRTUAL OFFICE JOINS THE NATIONAL COLLEGE

We're excited to announce that Governors' Virtual Office has joined The National College.

We're excited to announce that Governors' Virtual Office has joined The National College, a platform trusted by over 17,000 schools for leadership, compliance and continued professional development.

From September, the governance tools you rely on will be enhanced by a connected platform that brings together governance management, policy oversight, compliance workflows and expert guidance in one place.

As part of The National College community, you can also benefit from access to trusted education expertise, helping leaders stay compliant, respond to change with confidence and reduce administrative workload.

Over the coming months, the governance management functionality will be integrated with into The National College platform. The team will support you to connect your accounts and this will not impact your access to the governance functionality.

Further enhancements are planned to improve your experience and introduce functionality that effortlessly links governors to the information and training they need to be more effective.

Together, we're creating a complete system to align governance activity with the wider leadership and development tools schools already rely on.

We remain committed to providing you with the highest level of service and to make this transition as smooth as possible. If you have any queries or require any support please contact us in the usual way via support@thegvoffice.com or by calling 01273 921066 where you can speak to a member of the team.
